LETTER OF RECOMMENDATION

Dear Admission Committee,

I hope that you will strongly consider accepting Naman to the Master's program at your esteemed university. I recommend him most highly to you. I am an Assistant Professor at the Vellore Institute of Technology, an Institution of Eminence. I have known Naman for approximately 2 years. I served as his instructor for the courses 'Calculus for Engineers' and 'Applications of Differential and Difference Equations'.

Naman is simply phenomenal. He is a hard-working, reliable, and talented individual. He was one of the most engaged and committed student I have ever taught. During my class sessions, he frequently made incisive contributions to discussions and emanated a cheerful, humorous spirit. Naman was also highly receptive to feedback and instruction. I gained the sense that he relished opportunities to learn from supervisory feedback. In short, I thoroughly enjoyed having him in classes.

Naman's professionalism and dedication are unparalleled. His assignments were always submitted on time and with exceptional quality. I could count on him to participate as a team player in group projects. In fact, he is one of those rare students who sought out extra opportunities for upskilling by joining multiple competitions, workshops, and training sessions. Such experiences illustrate his strong commitment to the field of Engineering.

I sincerely hope you will take the opportunity to meet and know this exceptional individual. I offer this recommendation without reservation and would be happy to discuss Naman's qualifications further should you have any questions.

Sincerely,

Dr. Yogalakshmi T
Assistant Professor
